HOME FIRE MEETING. The Annual Election Held Yesterday Afternoon.

The annual meeting of the stockholders of the Home Fire Insurance company was held at the company's office yesterday. In the absence of Presilent Heber J. Grant and Vice President George Romney, John Henry Smith was chosen to preside over the meeting. The president's report for the year 1900 made a strong showing, the net premiums received, and the turns from investments, being the largest in the history of the company, while the fire losses were the smallest for many years. The annual election of flicers took place, and resulted in the choice of the following: Heber J. Grant, George Romney, John R. Barnes, Elias S. Smith, Henry Dinwoodey, Joseph F. Smith, John C. Cutler, John Henry Smith, Thomas G. Webber, Charles S. Burton, David Eccles, P. T. Farnsworth and Francis M. Lyman, as the board of directors, and L. S. Hills, treasurer; Horace G. MINERS LEAVING SCENE OF TROUBLE

Two Hundred Heading for Castle Gate Camp With Bands.

ARMED GUARDS ON SCENE.

Special Train Leaves tor the Seat of Demonstration at 1 o'clock This Morning-Other Matters.

SPECIAL TO THE "NEWS." Scoffeld, Utah, Feb. 5 .- Scoffeld is be-

coming somewhat deserted from the reason that so many are leaving. Yesterday morning about 150 men left on foot and about 20 on the train for Castle Gate. This morning there were 46 tickets sold at the depot. If this is kept up there will not be many left. A special was ordered out this morning at 1 o'clock bearing a number of guards for Castle Gate, where there are about 200 of the strikers from Scofield and Clear Creek in parade with two brass bands in their company.

MEN WANT TO WORK.

Pleasant Valley Company Receiving

Numerous Applications from Miners. Enquiry at the offices of the Pleasant Valley Coal company this morning elicited the information from General Manager W. G. Sharp that the company was daily receiving a number of applications for work in the mines at Winter Quarters and Clear Creek. In answer to several queries on the part of a "News" reporter, Mr. Sharp stated that every application that had been filed at the office would be considered, and that when it was deemed policy to open up the mines again that these men would receive consideration. At the present the mines would remain closed for an indefinite period, just how long he was not in a position to state.

BOYCOTT INDORSED.

Salt Lake Branch of American Fed-

eration of Labor Passes Resolutions. The committee representing the striking miners at Scofield last evening met with the Salt Lake branch of the Americal Federation of Labor in their hall on State street, and placed their before them with the result that the Federation declared themselves in favor of the strikers and requested "all fair-minded people not to buy the pro-duct of the Pleasant Valley coal company until that company gives proper recognition to the miners." This resolution is in accord with the action of the Building Trades the other evening. the boycott is to be carried out in its entirety it will mean that no institution is to be patronized by the sympathizers of the strikers which uses coal mined by the Pleasant Valley Coal company. If the boycott is to be carried out in the strictest sense of the word it will be far reaching in its effects.

The meeting last night was called to order at 8 o'clock by President J. H.
Brittain in the chair. The strikers' committee, composed of J. H. Hoye, Lewis George and P. J. Rooney, was invited to state their case which they proceeded to do at length, after which they left the room and the Federation discussed the situation with the result given above.

COMMITTEE TALKS.

When seen the committee stated to the "News" that they were much pleased at the reception they had re-ceived by the people of Salt Lake, and proceeded to express themselves as being very hopeful that the trouble at the mines would be adjusted in an equita-The committee then spoke at length in regard to the proceedings which were held at Castle Gate or Sunday, and also criticized the open letter of Ed Wannebo who is employed as a guard at the scene of the trouble. They stated that the Federation never a letter to the man as he says i did and further that Wannebo is not a delegate to the Federation. mittee dwelt at length on the sending of armed men to guard the company's property and emphatically denied that there ever was or would be any need of armed guards at the scene of the trouble as they were determined to act as peaceable citizens at any cost, come what might. The statement which had been made to the effect that the men who were agitating the strike were "a lot of saloon burns and loafers" also denied with much feeling George stating with some warmth that as far as the committee was concerned that two out of three members were to tal abstainers, while the third derate man in his actions and tastes. Coming back to the resolutions framed at Castle Gate on Sunday, Mr. George said:

CRITICIZES RESOLUTIONS.

"The resolution framers say that the treatment accorded the company by the Winted Quarters men is shabby, and that there are no real grievance exist-ing. In answer to this we, the represen-tatives of the men of Scofield and Clear Creek would say the men who passed this resolution don't know what they are talking about, for a better treatment in order to settle a grievance would not be accorded any company than that which we have already given them. We made them all kinds of propositions that the human mind could conceive of, in order to settle the matter and yet have received a blank refusal each time. To say that we should have given them three days more to consider the matter in order that the company might have more time to consider the proposition, which was the fairest that could have been made, and to get any advance at all, is to say and to reveal to the general public their utter lack of knowledge of the situation. We gave the company not less than nine days all told before any action was taken, namesix days at Winter Quarters, and three days at Clear Creek. We would like to know how much time the com pany wishes to consider a just demand its employes, and how much time would the company give us if they saw fit to introduce and impose upon us reduction?

VIEWS OF CONSERVATIVES.

"The resolution framers say also that the entire number of men who have families and who have been long employed by the company have been op-posed to he strike, and have expressed satisfaction with the wages paid and the treatment awarded them by the company. In answer we would say that we never saw the day ever sinte we have been employed by the company in which grievances have not pressed by those already mentioned in regard to the unjust treatment which has been accorded them both in and out of the mines. We care not whether it be in regard to matters in the mines or out of the mines in connection with the company store system. Who has ever met a man or an honest employe of the Pleasant Valley Coal company who has said that it is perfectly right and just that he should be compelled to load 3,200 pounds of coal for one ton, or sixty cents? Who is the man that says it is right for the company to make a profit of 100 per cent to 150 per
